

## The Most Popular Waterproof pH Meters for Field Measurements

HI 9024 and HI 9025 are microprocessor-based pH meters in waterproof casings.

HI 9024 measures pH and temperature, and HI 9025 can also measure ORP in the mV range.

Both meters are housed in rugged, waterproof, ABS casings that are built to last.

The Auto-Instruction feature guides the user step-by-step through the calibration process with graphic symbols.

The automatic calibration procedure is simple and quick and can be performed at 1 or 2 points selected from 5 memorized buffers: pH 4.01, 6.86, 7.01, 9.18, 10.01. A stability indicator assures a correct calibration.

Both meters also feature automatic shut-off to save battery life.
