

12880 $\mu\text{S}/\text{cm}$ Calibration Solution

The 12880 $\mu\text{S}/\text{cm}$ calibration solution is widely used to assure the proper performance of conductivity meters with a scale higher than 10 mS/cm.

This solution is used mainly for industrial applications and is available in various sizes to better meet clients' requirements.

Solution Bottle

Code	EC Value @25°C	Size	Package	FDA Bottle
HI 7030/1G	12880 $\mu\text{S}/\text{cm}$ ($\mu\text{mho}/\text{cm}$)	1 Gallon (3.78 L)	1 bottle	
HI 7030L	12880 $\mu\text{S}/\text{cm}$ ($\mu\text{mho}/\text{cm}$)	500 mL	1 bottle	
HI 7030M	12880 $\mu\text{S}/\text{cm}$ ($\mu\text{mho}/\text{cm}$)	230 mL	1 bottle	
HI 8030L	12880 $\mu\text{S}/\text{cm}$ ($\mu\text{mho}/\text{cm}$)	500 mL	1 bottle	•

Note: Certificate of analysis is available upon request.

Solution Sachet

Code	EC Value @25°C	Size	Package	Certificate of Analysis
HI 70030C	12880 $\mu\text{S}/\text{cm}$ ($\mu\text{mho}/\text{cm}$)	20 mL	25 sachets	•
HI 70030P	12880 $\mu\text{S}/\text{cm}$ ($\mu\text{mho}/\text{cm}$)	20 mL	25 sachets
